

FAREHAM - NORTH GOSPORT

5Km level

1) Wheel your bike along the north side of this busy road and roundabout

2) Going south turn right immediately after the Aldi supermarket to find a pedestrian underpass which emerges in parkland. Follow the cyclepath.

Going north pass under the underpass and then cycle on the road to the east of Aldi. Turn left at the main road.

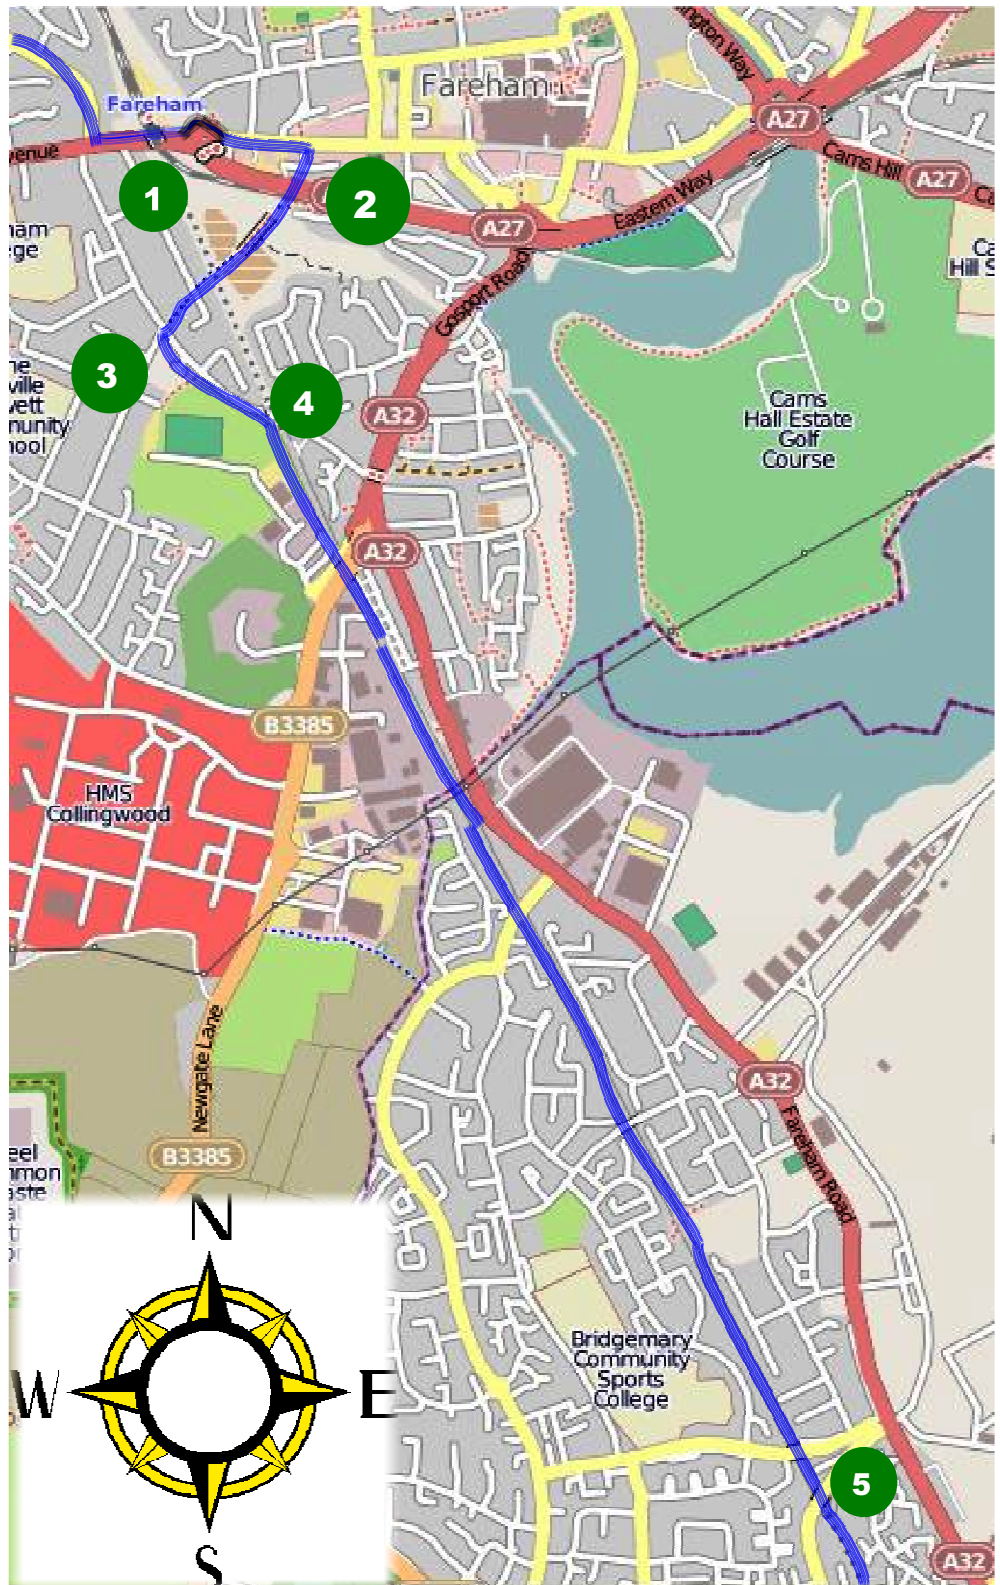

You can turn east at this junction to reach the shopping centre of Farnham, which has pubs, cafe's cycle shop and other shops.

3) Going south go left at the end of the cycle path, on to a road.

Going north look out for cycle path signs on your right. Turn right and follow the cycle path.

4) Going south join the busway which goes off to your right. (go under the bridge first to get on the correct side)

Going north leave the busway and bear left onto the road.

Between points 4 and 5 you are on a guided busway. This is a bizarre experience. It is a wide straight road, fenced on either side so there are no views. Only buses and cycles are allowed.

South of point five the route currently reverts to a cycle way, but a future extension of the busway is planned and there may be local diversions while this is built.
