

KNOWLE - FAREHAM

4km, 2.5m. Ascent 40m in either direction.

1) Traveling either way cross the railway bridge and turn left following the road.

2) Going south look carefully to your left after going over the bridge, after about 20 metres turn left down a narrow track and then almost immediately right. Do not cross the railway line. Descend to an old railway track and cycle along this.

Going north the old railway track comes to an end but there is a track ahead to the left. At the top of this turn left and then immediately right to reach the road. Turn right at the road.

3) Underpass under the motorway.

4) Going south, at the end of the old railway line turn right onto the road and then take the second left just before some shops (This is obviously a through road) Cycle to the end of the road.

Going north, turn right at the end of the road and then left onto at track.

6) Going south turn left at the main A27 and push your bike along the pavement on the north side and round the north side of the roundabout.

Going north push your bike on the pavement round the north side of the roundabout and along the north side of the A27 under the railway bridge. Take the first significant roand on the right.
